Contents Volume 243 2002

Volume 243 No. 1

Soil phosphorus dynamics and maize response to different rates of phosphorus fertilizer applied to an Acrisol in western Kenya
G. Nziguheba, R. Merckx and C.A. Palm **1–10**

H^+ budget in oligotrophic *Quercus pyrenaica* forests: atmospheric and management-induced soil acidification?
G. Moreno Marcos and J.F. Gallardo Lancho **11–22**

Utilization of organic nitrogen at two different substrate pH by different ectomycorrhizal fungi growing in symbiosis with *Pinus sylvestris* seedlings
H. Wallander **23–30**

Quantitative effects of soil nitrate, growth potential and phenology on symbiotic nitrogen fixation of pea (*Pisum sativum* L.)
A.-S. Voisin, C. Salon, N.G. Munier-Jolain and B. Ney **31–42**

Response of the root system of a winter wheat crop to waterlogging
N. Brisson, B. Rebière, D. Zimmer and P. Renault **43–55**

Relative toxicity of arsenite and arsenate on germination and early seedling growth of rice (*Oryza sativa* L.)
Md. Joinal Abedin and A.A. Meharg **57–66**

Diffusion and seasonal dynamics of O_2 in woody debris from the Pacific Northwest, USA
W.T. Hicks and M.E. Harmon **67–79**

Do plant parasitic nematodes have differential effects on the productivity of a fast- and a slow-growing grass species?
B.C. Verschoor, R.G.M. de Goede and L. Brussaard **81–90**

Effect of inorganic N on the population, *in vitro* colonization and morphology of *Acetobacter diazotrophicus* (syn. *Gluconacetobacter diazotrophicus*)
R. Muthukumarasamy, G. Revathi and P. Loganathan **91–102**

Effects of planted tree fallows on soil nitrogen dynamics, above-ground and root biomass, N_2-fixation and subsequent maize crop productivity in Kenya
L. Ståhl, G. Nyberg, P. Högberg and R.J. Buresh **103–117**

Impact of drying and re-wetting on N, P and K dynamics in a wetland soil
H. Olde Venterink, T.E. Davidsson, K. Kiehl and L. Leonardson **119–130**

Volume 243 No. 2

The role of soil hydraulic conductivity on the spatial and temporal variation of root water uptake in drip-irrigated corn
Y. Li, R. Wallach and Y. Cohen **131–142**

Disturbance of forest by trampling: Effects on mycorrhizal roots of seedlings and mature trees of *Fagus sylvatica*
B. Waltert, V. Wiemken, H.-P. Rusterholz, T. Boller and B. Baur **143–154**

The effect of compatible and incompatible *Azospirillum brasilense* strains on proton efflux of intact wheat roots
R. Amooaghaie, A. Mostajeran and G. Emtiazi **155–160**

Development of fine and coarse roots of *Thuja occidentalis* 'Brabant' in non-irrigated and drip irrigated field plots
A.A. Pronk, P. De Willigen, E. Heuvelink and H. Challa **161–171**

Experimental and mathematical simulation of plant growth promoting rhizobacteria and plant interaction under cadmium stress
V.N. Pishchik, N.I. Vorobyev, I.I. Chernyaeva, S.V. Timofeeva, A.P Kozhemyakov, Y.V. Alexeev and S.M. Lukin **173–186**

Oat plant effects on net nitrogen mineralization
T.B. Parkin, T.C. Kaspar and C. Cambardella **187–195**

Changes in microbial activity and composition in a pasture ecosystem exposed to elevated atmospheric carbon dioxide
C.M. Montealegre, C. van Kessel, M.P. Russelle and M.J. Sadowsky **197–207**

Changes in the extractability of cations (Ca, Mg and K) in the rhizosphere soil of Norway spruce (*Picea abies*) roots
J. Zhang and E. George **209–217**

Copper bioavailability and rhizosphere pH changes as affected by nitrogen supply for tomato and oilseed rape cropped on an acidic and a calcareous soil
V. Chaignon, F. Bedin and P. Hinsinger **219–228**

Responses to drought of five *Brachiaria* species. I. Biomass production, leaf growth, root distribution, water use and forage quality
O. Guenni, D. Marín and Z. Baruch **229–241**

Dry matter production and boron concentrations of vegetative and reproductive tissues of canola and sunflower plants grown in nutrient solution
A. Asad, F.P.C. Blamey and D.G. Edwards **243–252**

Corrigendum **253–253**

Volume contents **255–257**

Author index **259**
